# Microsoft POWER BI

In-class Training

Data analysts make it possible for companies to optimize the value of their information assets by utilizing Microsoft Power BI. Data Analysts are accountable for designing and building scalable information designs, cleaning and changing information, and allowing innovative analytic capabilities that supply purposeful business worth through easy-to-comprehend data visualizations. The main purpose of the course is to give participants a good understanding of data analysis with Power BI.

 **Date:** October 10-11-12, 2023

 **Training @**[kfas.org.kw](https://kfas.org.kw)

 **22278100 ext 1879/1883**
