

RENEWABLES ACADEMY ONLINE

VARIETY OF ONLINE TRAININGS IN RENEWABLE ENERGY AND ENERGY EFFICIENCY
Fall Semester 2021, **Starting 01.10.2021**

	Online Training Course Title*	Duration	Study Hours
1	Applying Renewable Energy: Complete Overview	6 months	100
2	Applying Renewable Energy: Small-scale Systems	6 months	70
3	Applying Renewable Energy: Large-scale systems	6 months	60
4	Applying Renewable Energy: Solar Technologies	6 months	70
5	Applying Renewable Energy: Market Leaders	6 months	60
6	Applying Energy Efficiency	6 months	100
7	Applying Green Energy Finance: Renewable Energy and Energy Efficiency	3 months	120
8	Certified Renewable Energy Project Developer: Biogas	6 months	130
9	Certified Renewable Energy Project Developer: Wind Power	6 months	130
10	Certified Renewable Energy Project Developer: Solar Thermal	6 months	130
11	Certified Renewable Energy Project Developer: PV-Diesel Hybrid Systems	6 months	130
12	Certified Renewable Energy Project Developer: Photovoltaics	6 months	130
13	Certified PV Professional	6 months	150
14	Certified Flexible Power System Specialist (CFPSS)	6 months	180
15	Certified ReGrid® Manager	6 months	200

* [Click on course title for course content & details](#)

A detailed course description is available for download, and access to the demo course on our e-learning platform.

Highlights:

- Flexibility to study at any time and from any location
- Extensive support and live virtual classrooms
- Multimedia learning material and self-evaluation tests
- Certified by the Staatliche Zentralstelle für Fernunterricht - ZFU (German Authority for Distance Learning)
- RENAC certificate upon successful finalisation of the training

CERTIFIED EUROPEAN E-LEARNING MANAGER

Features:

- Interactive learning platform
- Stream and download videos
- Integrated glossary and feedback questionnaires
- Self-tests and online exams
- Forum for participants
- Cross-browser and mobile-compatible

About RENAC

The Renewables Academy AG (RENAC) based in Berlin, Germany, is one of the leading international providers for training and capacity building in renewable energy and energy efficiency.

Our belief is that knowledge is one of the key factors for the sustainable development of clean and secure energy supplies.

For further information, please visit RENAC's website at www.renac.de
